

Put an **extra lock** on your bank account.

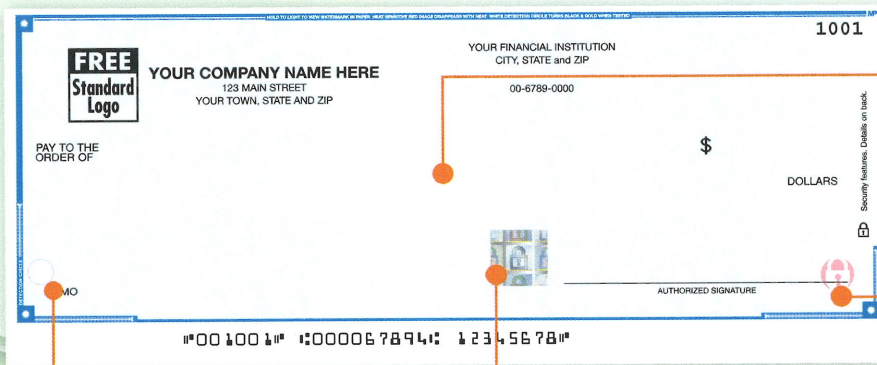

Many businesses don't expect they will be a victim of check fraud. But research indicates 66% of businesses experience actual or attempted payment fraud.¹ **Why take the risk?** For **just pennies more per check**, you can upgrade to High Security checks with features that deter, detect and defend your business against check fraud.

DETER criminals with features to prevent copying, identify when alteration has been attempted and easily identify if a check is an original document.

DETECT fraud attempts more quickly, enabling fraudulent checks to be reported sooner and protecting your account.

DEFEND your credit record by demonstrating to authorities you've proactively reduced your risk.

Technology

Multi-Tonal Void Pantograph & Verification Grid

A VOID element appears, and an otherwise noticeable element disappears, when the document is copied. This provides an effective deterrent to criminals.

Ink reacts to heat to deter and detect copying.

False Positive Test Area

A fluorescent lock appears when viewed under UV light.

Anti-copy Technology

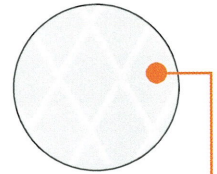

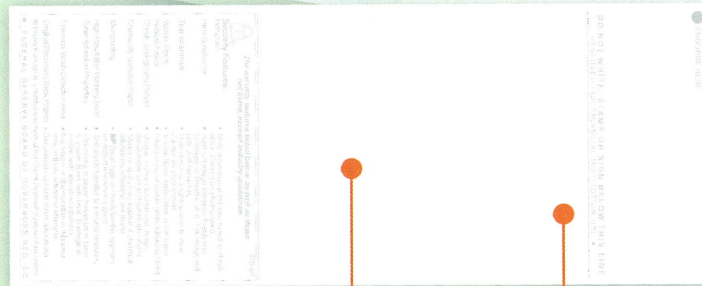

This feature makes it very difficult to copy a document on the majority of copiers in use today.

High-Security Background Colors

Copiers and scanners cannot duplicate these green, burgundy, blue, yellow, or purple background colors.

Foil Hologram

Multi-colored, dimensional foil has *seven embedded security features* that cannot be reproduced by copiers or scanners.

Watermark pressed into paper can be seen by holding the check up to a light source but cannot be reproduced by copiers or scanners.

Chemical-Wash Detection Area

Chemical alteration attempts result in speckling or stains in this lock area.

Original Document Backer

Original document screening deters cut-and-paste alteration attempts.

Also includes these security features:

- Chemical-sensitive paper
- Toner adhesion
- High-resolution border elements
- Consecutive numbering
- Padlock icon
- Color pantograph background pattern
- Invisible fluorescent fibers
- Security warning box
- Microprinted borders
- Warning border
- Visible fibers

Checks may look slightly different from those shown as we continue to improve our High Security technology.
